# We are Nude

We live in a confusing world;  
too many choices, too many products,  
too much 'noise'.

But Nude believes things can be  
different; the remedy simple.

Simple is beautiful, pure, clear,  
transparent.  
Simple is useable, clean, uncluttered,  
practical.  
Simple is convenient, reliable,  
professional.

Simple is all of these things,  
and also the reason why things are so  
rarely simple.

Nude considers actual and specific  
needs, then refines them to their  
essence. The final object is thus both  
easy to understand and work with.

Nude believes less equals more, that  
form works best when it meets function.  
Where everything is appropriate in the  
right place at the right time, the right  
delivery for the right need.

Nude also believes in an 360 degree  
approach, where the entire architecture  
of the dining experience is taken into  
account. Our products are thus created  
to enhance and enliven the atmosphere  
of dining, whether in a bar, bistro,  
or restaurant.

Nude glassware is always fit for purpose.  
It is practical, sturdy, and usable.  
We pay huge attention to our clients'  
needs, and never lose sight of the need  
for functionality.

This idea of practical and aesthetic  
integration is the guiding principle behind  
Nude, and is reflected both in our mind  
set and our culture.

The result is our promise reflected in  
glass.

It is simple...

It is Nude.

# The Nude Style and Design Vision

## Contemporary

One of our missions is to design and create collections of lead-free crystal glass specifically manufactured for the hotel and restaurant industry. Our focus is on delivering elegant, practical, and relevant solutions for the modern dining and entertaining experience; nothing more, nothing less.

## Simple

Nude believes simple is beautiful, that form is function, and less is more. This is equally true when it comes to the way we do business. We like to build straightforward, simple, and long-term relationships serving the needs and requirements of everyone involved.

## Sensuous

Nude takes pleasure seriously and recognises the importance of establishing a dynamic and vibrant atmosphere. Attention to detail is paramount, yet at the same time there must always be room for people to feel comfortable, to breathe. Nude glassware supports and embellishes rather than overwhelms, the immaculate crystal adding a sense of refinement and beauty to any environment.

## Experimental

Nude is never afraid to take risks. We feel it is the only way of creating something inspirational. Individuality is important, and Nude fearlessly investigates innovative ideas. We are constantly inquisitive and work hard to develop dynamic collaborations with artists and designers. At the same time, we make sure to retain a sense of simplicity and fun.

# A new era.... A new dining experience.

When it comes to precision glassware, Nude offers a complete solution for the hospitality industry. Known for our design excellence, our portfolio delivers exceptional products. But we believe in simplicity. Nothing should detract from the skill of the chef or choice of the sommelier. The character of the restaurant should be enhanced by the elements it contains rather than dominated. Nude glassware is therefore stunning yet subtle, made to blend perfectly with its surroundings, both honouring and adding to the ambience.

While working to deliver the perfect range of glassware, Nude also focuses on practical requirements.

Our lead free crystal is designed to marry excellence with dependability and practicality. This respect for the realities of the hospitality industry lies at the heart of our relationships with our business partners.

Our dedication and services  
to hotel and restaurant  
professionals

# BEST WITH THE BEST NUDE & MIRAZUR

## AN INTERVIEW WITH 3 MICHELIN STAR CHEF MAURO COLAGRECO

### **Why did you decide to use Nude glassware at Mirazur?**

I chose Nude glassware for its different style and also for the lightness of the glass, itself. With that kind of glassware we can use one glass for the wine pairing instead of many different glasses, which can be overwhelming. It becomes like show for the client.

### **Do you think that the quality of food and food service and the atmosphere and the aesthetics of a restaurant have a significant influence on each other?**

I believe that the gastronomic experience begins with the person's arrival at the restaurant, not just with the tasting of a dish. Each element--food, service, atmosphere and aesthetics--is part of a coherent whole that will provide a broader and richer experience for the senses and in the minds of the people who visit us. This year we have renewed the interior and we continue with work in other areas of the restaurant according to this philosophy.

### **Does glass, as a material, have a particular meaning or beauty for you as a chef?**

Of course, glass is a very interesting material for chefs. We can give glass whatever form and color we wish and we must use fire to do it! It's just like cooking.

### **Where do you most often find your inspiration for the creative process of cooking?**

Inspiration is an unanticipated process, which cannot be predicted, but in my case most of the time inspiration comes from the ingredients I find in the gardens, or that I discover in the market. From there, I like to play with new combinations. I work with the organoleptic properties of the ingredients, but also I think about their origins, the history related to each ingredient, and the way we usually work with it...

### **In 2006, how did you originally want the gastronomic experience to feel at Mirazur? What influenced or inspired you while you were creating the concept?**

Although Mirazur has evolved over time, I had the idea from the first day: I did not want to offer only dishes to customers, but a real experience. I wanted to offer a "trip" and for the customer to trust me and let himself be drawn into the experience. It is a challenge that, for me, requires great responsibility and creativity to support customers in their desire to be surprised. In a menu there is much more than ingredients. There is emotion, associations that will occur in the memory and the personal and unique universe of each person in the encounter with a smell, a color, a texture. For me, this is "the trip".

### **Like people, restaurants probably change naturally over the years, but Mirazur just keeps winning awards like this year's Best Restaurant 2019 award. What do you think has been the key to maintaining your success over time?**

The secret is to always evolve. I've never worked for the prizes, to follow the achievements of others. I work to feel free in my creations. I work to meet people and make them feel a unique moment. Not being afraid to follow your own passion is the key.

### **Besides Mirazur, I know that you also own a chain of Argentine hamburger restaurants, Carne. What attracts you to owning these two very different types of restaurants?**

For me, there is good cuisine and bad cuisine. The important thing is not who the public is but what the values of the restaurant are. We always cook according to the same principles--using only excellent ingredients and respecting nature--whether it is for a wide audience or haute cuisine. The foundation is the same.

### **Have you ever used or are you still using bare glassware at home? If so, which part(s) do you use and why?**

We use the Bare glass for gin and tonics because it's light and strong. The taste is different with the touch of a Nude glass.

# Nude Wine

Our extensive range of wine glasses is something Nude are both known for and are proud. We understand that people, like wine, are varied, with a multiplicity of tastes and needs. To celebrate that fact, we have created a wide selection of wine glasses - both hand and machine made - that we feel serve every purpose.

Nude is also aware of the requirements of the hospitality industry and constantly evolve our collections to suit the zeitgeist, attitude and location.

We passionately feel that the choice of glass enhances the drinking experience. It helps establish the dynamic, and finishes the table in a perfect way. Nude wine glasses also add to the sense of ceremony and theatre. They engage with the emotions, intensifying a sense of conviviality. At the same time, Nude never believes in being overprescriptive. Our products solely exist to enliven, encouraging any atmosphere to shine.

Our wine glasses are therefore made for a myriad of locales from the simple to the ornate, the relaxed to the refined. Nude products illuminate the dining space, delivering a reliable and compelling set of qualities best suited to your needs.

# BEAUTIFULLY STRONG

Stem Zero 

Introducing Stem Zero made with our 'Ion Shielding Technology'.  
Making it the world's toughest, yet finest lead free crystal glass.  
You could say it is beautifully strong.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favorite wine.

## **It couldn't be done, surely?**

Our designers at NUDE asked themselves the same question, but after a huge amount of work and dedication have come up with the answer.

## **We call it... Stem Zero**

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

Some look tough but are so fragile.  
Some look fragile but tougher than  
any other...

The new Stem Zero with Ion Shielding Technology, reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

# Nude Signature Collections

The Signature Collections are a series of ongoing dialogues between creative genius, exquisite materials and glass. Nude offers the platform, process, craftsmen and the furnace. The design itself is manifested by the collaborating partner who brings their personal values to the process. The Nude Signature Collections push the boundaries of what's achievable, questioning the creative possibility of things. In doing so they deliver items that are both compelling and original.

# Ron Arad

An icon as an architect and industrial designer, Ron Arad has always ignored the notion of formal disciplines and boundaries. He is a creator in the purest sense, his portfolio of work is a testament to his creative genius and free spirit. He defines design as, 'the act of imposing one's will on materials to perform a function.' He is a constant innovator, questioning, challenging, re-thinking and reinterpreting the objects that surround our lives. The Ron Arad Signature Collection for Nude includes iconic pieces such as the 'DecanteRing' and 'Wine Party,' both masterfully hand-crafted in lead-free crystal.

A portrait of Ron Arad, a man with a beard and mustache, wearing a dark t-shirt and a woven hat with orange and green accents. He is resting his chin on his hand, looking thoughtfully to the side. The background is a dark, textured surface with a radial pattern. A pair of sunglasses is tucked into his shirt.

# DECANTERING

As someone once said: 'Wine is just a conversation waiting to happen.' It is in that spirit the DecanteRing exists. A symmetrical cylinder of perfectly blown glass, this beautiful artefact enables the wine to breathe properly while letting light and movement play around the liquid. The degree of craftsmanship involved is extraordinary, the glass cut and polished to perfection. A wonderful conversation starter.

# RED OR WHITE

A flirtatious range including a decanter, jug and two glasses. The way the glass leans, mirrors the way people bend closer to hear a conversation or whisper a secret. The shape of the glass also makes reference to the tipsy-like state a party engenders. Also note the upside-down wine glasses. No need to waste time when moving from white to red; a twist of the wrist and one can proceed uninterrupted.

# GLAZZ

The inspiration for the Glazz stacking glasses comes simply from considering a way of stacking glasses that avoids all the usual problems like locking together, breaking or being damaged and scratched which spoils the look and experience during use. The Glazz design avoids any of this damage to the surface of the glass when stacked especially around the rim where you drink from. The result is a distinctive, reassuringly weighted glass that retains a crystal clear smooth finish and increases its lifespan.

# Nude Drinks

As well as catering to wine and spirit drinkers, Nude has also created a range of complimentary glasses for other drinks. These work as stand alone items or as part of a set. Nude feels it is important to deliver an integrated experience, where each element of glassware compliments the other. The glasses made for our soft drink range have of course been finished to the exact same high degree of specification.

# DUAL

Two glasses inverted, enabling the user to decide which type of coffee they want to drink. The shorter of the two glasses is perfect for a single espresso, while the longer glass can be used for a double.

# ADDICT

The Addict is perfectly balanced with a smooth rim and a strong yet easy-to-grip glass-blown handle.

# DELIZIA

The Delizia is an elegant tasting glass that works particularly well with coffee. The rim of the glass is delicate and fine, the bowl is wide enough to permit the aromas to circulate.

# IMPULSE

The Impulse glass feels wonderful in the hand, the space between the base and the glass, smooth and sensuous, much like the coffee itself.

# HEPBURN

Simultaneously ethereal and worldly, soft and hard, simple but complex, subtle and straightforward, the six-piece Hepburn barware collection embodies the same complexities. The cocktail shaker, mixing jug, martini glass, mixer glass, 'alchemy glass' (for the creation of cocktails with a more intense flavour) and tumbler feature the soft curves and clean lines of the leading lady, and set the scene for creating an experience instead of merely a drink.

# ALBA

'Alba' is Gaelic for Scotland, and this collection pays tribute to the spiritual home of whisky. The elegant glasses are punctuated by a hand-engraved and cleverly deconstructed tartan pattern. The decanters, also incorporating the ingenious tartan etching, are punctuated by a unique stopper which leans omni-directionally, inviting the more dedicated whisky lover to point the stopper in the direction of Scotland.

# ISLANDS

Available in three stem sizes, the Islands collection was designed to be simple, modern, pure and supremely functional. Amplifying these qualities are the transparency and soft brilliance of the glass. With its slightly flared lip, the whisky tumbler directs the spirit's flow to the tip of the tongue, emphasizing its smooth, silken feel in the mouth. Meanwhile, the broad bowl of the glass, tapering toward the top, concentrates the liquid's aroma and flavors, optimizing the sensory experience.

# ARCH

A sophisticated yet witty piece of craftsmanship, the Arch whisky bottle, a set of two glasses, and a matching bowl, are a group of perfectly balanced items that seem to defy logic but sit solidly on any surface. The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The pieces have a subtle interlocking design that allows them to fit together imaginatively.

# CAMP

The 'Camp' collection consists of a decanter and two matching glasses. The decanter has been designed to deliberately reflect a traditional hip flask, an item often passed around a roaring campfire. The integrated brass "X" coasters at the base of the items suggest the warmth emanating from burning logs, not dissimilar to the feeling one gets from tasting a great whisky.

# WAYNE

The Wayne series consists of drinking glasses designed to underscore the aesthetic purity and radiance of crystalline glass. Each piece features a variety of reflections created by bold vertical scoring, equivalent to crisp pleats in a dress shirt. A horizontal channel at the bottom of each glass deepens the luminosity of each. Meanwhile, it clearly distinguishes the upper and lower elements of the objects and enriches the occasional overlay of cuts.

# CHABLIS

A great white wine, especially one that is young, in order to maximise its depth and complexity, has to be decanted the same way as red wine. Yet as decanting takes place, it's important to maintain the cool temperature of the wine. To make sure of this, we have created a range of carafes and decanters especially for white wines. They allow full aeration and, at the same time, keep the wine chilled.

# VINTAGE

A sensuous decanter from the Vintage range with a spherical cork stopper. Intentionally feminine in design, short funnelled, it has an exquisitely blown base with an ingenious pyramid like indent.

# OXYGEN

These two decanters are terrific for small gatherings or parties. The way the lip of the decanter is angled is both practical and inviting.

# CANTINA

Named after the wineries in Italy and Spain, the Cantina is a must for all festive occasions, bringing joy and delight to family and friends.

O<sub>2</sub>

The O2 carafes are solid wide-bottomed decanters made from the highest quality crystal glass. The glass has been delicately moulded with a series of dramatic intersecting perpendicular lines creating a sense of depth and character. The bottom of the carafes are softly domed, letting light into the base of the item.

# PIGMENTO

Studio Formafantasma emphasize the manual genius and honor the traces left by the artisan's hand during the crafting of their tableware. Pigmento re-interprets a traditional hand-making technique used to add hue to glass in the process of mouthblowing an object, an intuitive process that generates a different result every time. Through the milky material, amorphous accents of colourful pigments are blown, smoke-like, emphasising the serendipity and uniqueness of each piece.

A hand-blown dome of transparent glass, the Fromage makes a stunning table display. Sitting on a circular slate base, the glass is in the form of a giant teardrop allowing air to circulate around the contents. A small vent blown into the glass prevents food from 'sweating'. As the domes are all hand-blown, not one of them is exactly the same.

# Nude Rock & Pop Artist Collection

Like hand-blown glass--liquid and solid, brittle but unbreakable--humans are unique: Genetically, we're almost identical, but we differ in tiny ways that make each of us unrepeatable.

As a young, modern brand, Nude celebrates singularity. We are endlessly inspired by the expressive potential of street culture and the myriad musical genres to which it has given rise. Street art and music are felt, not reasoned. They are languages that promote self-expression in infinite forms but, at the same time, are understood by anyone and everyone.

# Nude Decoration

To complete the dining and hospitality experience, Nude has created a number of expertly-made glass items which we feel add character and personality to the table. Still honouring the sensibility of simplicity and style, these items deliver the finishing touch. We passionately believe that glassware should be a dynamic part of the room, helping to create both atmosphere and theatre. These pieces reaffirm the notion that for Nude, hospitality is not simply about catering, but creating.

# MEMENTO MORI

Inspired by his Punk Rock roots, Erdem Akan has always been keen to mix the dramatic with the playful. While respecting the beautifully macabre aspect of the human skull, he chooses to place it on its side - as if sleeping - while at the same time making it useful. It's a bold statement, full of wit and attitude. The skull acts as a bowl, and what you decide to put in it - a simple flower, coloured candies, pens and pencils - allows you to make your own statement about life... and death. The skulls come in three iterations of glass: crystal clear, opaque white, and jet black, each one providing a striking addition to any room.

# MIST

From the designer Tamer Nakışçı this trio of vases are made in an extraordinary clear yet corrugated glass. The rippled effect creates an optical illusion reflecting the different colours of the contents in an almost magical way. Flowers particularly are beautifully presented in these vases, the undulation blurring the stems, bringing into focus the colour of the petals.

# CONTOUR

An innovative range comprising of two elegant crystal vases and two bowls all with an arresting copper base. At once solid yet ethereal, the vases seem to disappear as they reach their apex, allowing the contents to take over the drama. # Nude Lighting

Light allows the world to take shape.  
Without it everything dissolves into  
nothingness.

Light is illusive and ethereal, bringing the  
world to life in an instant.

Light is pure and luminescent...  
Revealing the simple beauty that  
surrounds us.

# BABEL

Out of earth, air, water and wood comes the Babel rechargeable LED table lamp. Babel’s structural shape, surface cut and stainless steel fixtures, are simultaneously airy and fluid. “I was immediately impressed by the powerful relationship that exists between the glass blower and the material,” the designer recalls. “Each of their gestures, tirelessly repeated and mastered over the years, is based on a skilled technique.” These artisans carve the light’s tapered form in multiple facets that diffuse its glow over the table in many splinters of light.

# FUSION

The material fusion of water and glass, the elements that make up glass, has inspired this table light,” Duchaufour-Lawrance says. “The dreamy dimension of the object is in harmony with its simplicity.” FUSION is a rechargeable LED lamp made from hand-blown glasses in clear glass containing bubbles and stainless steel fixture.

# BLOW

An extraordinary and original piece created by the Swiss-based and award-winning designer Tomas Kral. “The two parts of the lamp are assembled together by simple rubber bands which refer to the top of a hot-air balloon. This minimal connection creates a tension sufficient to maintain the stability of the lamp, and also allows quick disassembly for changing the bulb.” Light and airy, the lamp, though sturdy, seems to float.

# MIRA

For a slightly softer look, the Mira lamp opens out like a ball-gown, sending a wider beam of light. Incorporating the same concrete socket of its brother lamp, the Mira maintains an air of simplicity while still offering fantastic personality and style.

# MONO

A superb lamp, minimal in design yet strong in attitude, the Mono is made from blown unworked glass. Determinedly non-ornamental, it retains a strong sense of style, its concrete socket working in perfect balance with the simplicity of the glass itself. Embodying loft living, the Mono is a stunning centrepiece for any room.

# ORION

A truly dramatic addition to any room, the Orion night light is an extraordinary piece of design. Essentially simple in its make-up, the crystal glass shade resting on a solid concrete base hails back to the Sci-Fi movies of the 1950's.

# SMOOTH

The Smooth bedside lamp is comforting, minimal, soft, and unobtrusive. Its space-age design emits a warm glow, the feel of the lamp organic, the textures tactile. The main shade itself is made of opaque glass, contrasting effectively with the slate stone base, the matt and gloss finishes acting in harmony.

# Lead free crystal glass - its benefits.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. Nude understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process. It has a ~99% transmission of light and the glass itself has a reflective index of >1.520 reducing chromatic aberration and intensifying its sparkle. The glass is also distinguished by its superior sound, delivering a sharper, more resonant ring. Our glassware can thus be appreciated by all four senses!
